AI Models

Flexible & Easy
Installation

Real-time Recognition
Result & Data

【 World's Smallest Edge AI Recognition Camera 】

VISION

Recognition Redefined By You

昱辰資訊有限公司
Digital System Integration

VISION

Smallest Edge
AI Recognition Camera

Features

All-in-One Smart Recognition Device : Easy Setup, Instant Use

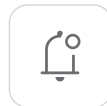

Your Way with AI

Versatile AI Recognition :
People, Objects, Plates,
Thermal - Customizable to
Needs.

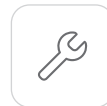

Diverse Connectivity

Support both WiFi and 4G :
offering the connection best
for Your Environment &
ensuring uninterrupted
performance.

Instant Notifications

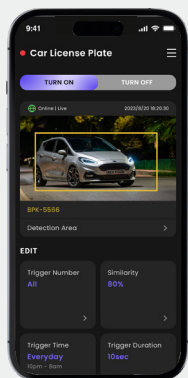

Integrating AI recognition results
with messaging apps to deliver
real-time push notifications and
status updates.

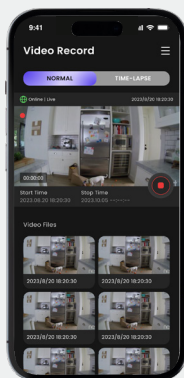

Sleek and Easy to Install

Free from complicated peripherals
and is compatible with a wide range
of environments
& applications.

Notifications

- Efficient AI with Low Energy Usage
- Tiny-sized for easy use and installation
- Includes speaker and mic for on-site interaction
- Full HD video & images for high-definition visuals
- Built-in IR for clear night recognition
- 24/7 AI detection for constant field monitoring
- Real-time video recording and instant playback
- Various AI Models designed on user demand
- Recognition results through messaging apps

Vision Product Spec

CPU	Quad-Core ARM SoC & AI Accelerator	Thermal	768 FIR pixels
OS	Linux	LED	Detection Angle : 55°
Edge AI	Selectable AI Models	Power	Red/Green/Blue
Lens	5-megapixel, Day/Night Imaging	Install	5V/3A, USB-C
	120° Wide-Angle Lens, No Distortion	Size	1/4-inch Locking Hole
Network	Ethernet/WiFi, 4G/LTE		
Spk/Mic	Mono 1W Spk / MEMS Mic
